

Precision Forensics – Super Timeline Report SOP Alignment & Assembly Checklist

This document aligns each section of the Super Timeline forensic report with SOP verification guidance. Each section is presented individually to ensure all guidance is fully readable and usable during report assembly.

Executive Summary

- Summarizes the matter at a high level for attorneys.
- Contains no technical jargon, legal conclusions, or attribution analysis.
- Describes what was examined and the general nature of findings only.

Scope of Work

- Clearly lists all data sources examined.
- Explicitly states exclusions and limitations.
- Matches the engagement letter exactly.

Time Normalization

- States that timestamps are normalized to UTC.
- Identifies original time zones when known.
- Explains why normalization is necessary for accurate comparison.

Timeline Approach

- Describes methodology at a high level.
- Explains consolidation of multiple forensic artifacts.
- Avoids unnecessary tool-specific detail.

Timeline Overview

- Provides a narrative summary of major activity periods.
- Identifies key phases without listing individual events.
- Aligns with the detailed timeline section.

Key Findings

- Summarizes significant technical findings.
- Uses neutral, factual language.
- Avoids intent, responsibility, or legal conclusions.

Super Timeline (Attorney-Readable)

- Presents a curated chronological table.
- Uses plain-language event descriptions.
- Includes only events necessary to understand sequence and timing.

Attribution Analysis (If Included)

- Evaluates technical consistency with user, application, or system activity.
- Clearly states attribution limitations.
- Does not infer intent or motive.

Observations

- Documents supplemental technical observations.
- Notes inconsistencies or gaps without speculation.
- Does not introduce new findings.

Legal Relevance (Technical Perspective)

- Explains relevance from a technical standpoint only.
- Includes a disclaimer that legal interpretation belongs to counsel.
- Avoids legal opinions or conclusions.

Conclusion

- Summarizes what the analysis establishes technically.
- Restates scope and limitations.
- Introduces no new findings or analysis.

Final Report Assembly Checklist

- All report sections are present and in the approved order.
- Executive Summary reviewed for attorney readability.
- Scope of Work verified against engagement letter.
- UTC time normalization statement confirmed.
- Timeline sections reviewed for clarity and relevance.
- Attribution analysis included only if scoped.
- Legal Relevance section contains no legal conclusions.
- Conclusion introduces no new information.
- Final quality control review completed prior to delivery.

This checklist must be completed before delivering any Super Timeline forensic report. Any deviation from SOP requirements must be documented and approved.
